### Funding Agency:

Organization	Rec. and Conserv. Office
Address	PO Box 40917
City, State, Zip	Olympia, WA 98504-0917
Phone	360-902-3000
Contact	Elizabeth Butler, Email: elizabeth.butler@rco.wa.gov

### PLEASE DESCRIBE THE TYPE OF WORK TO BE COMPLETED

(Be as detailed as possible to avoid having to provide additional information)

#### Provide a detailed description of the proposed project:

The Stillaguamish Riparian Restoration Crew 3 project will expand and enhance native riparian forests within the Stillaguamish Basin with an emphasis on First and Second Priority sub-basins that support Chinook salmon as described in the Stillaguamish Watershed Chinook Salmon Recovery Plan. This restoration project should benefit all salmonids in the basin. The Plan states that riparian ecosystems perform a number of critical functions that affect the quality and quantity of salmonid habitat. Work sites are located along freshwater streams, including the North Fork and Mainstem Stillaguamish River and Squire Creek.

A total of at least 100 acres of riparian planting will occur over multiple work sites. In addition, this project will control weeds on at least 55 acres, install at least 2,000 linear feet of fencing, and propagate at least 27,000 native plants for use during riparian planting. The Crew aims for a survival rate of greater than 80% at 3 years following installation.

The Riparian Crew consists of inmates from Snohomish County Sheriff's Office Corrections Bureau who are supervised by the Tribe's Riparian Ecologist. The Crew has logged thousands of hours completing similar restoration projects led by the Tribe and others working in the basin on Tribal, private, and public lands in support of Pacific salmon recovery.

---

#### Describe existing project site conditions.

# PROJECT REVIEW SHEET - EZ1

## HISTORIC & CULTURAL RESOURCES REVIEW

---

Arney: Current and past land use is forestry.

Noble: Current and past land use is agriculture.

Leland-Douglas: Current and past land use is forestry.

Bryson: Current and past land use is forestry.

Stillaguamish Natural Resources: Current and past land use is agriculture.

These parcels have potential for providing enhanced, future riparian function including large wood recruitment.

---

**Describe any proposed ground disturbing activities. That is, will a tool(s) be used to move earth (soil, rock, gra**

100 acres will be planted with native trees and shrubs (Noble Property -16 ac, Leland Property - 20 ac, Bryson Property - 35, Arney Property - 19ac, and Stillaguamish Natural Resources Property - 10 ac).

Planting holes will be dug with shovels to maximum depth of 12 inches. In addition, 2000' of fencing will be installed on the Noble property, which will involve driving steel t-posts for fencing. Weed control will consist of mechanical cutting of plant stems and herbicide application; no ground disturbance will be associated with weed control or site (weed) maintenance.

---

**Will buildings be altered or demolished? If so please complete a DAHP Determination of Eligibility EZ2 form for each building affected by the proposed project and attach the form to your project in PRISM. <http://www.dahp.wa.gov/pages/Documents/Sites.htm>**

No
